FOR MORE PICTURES VIDEOS
 AND HERD SIRES GO TO OUR
 WEBSITE AT
WWW.LARSONRANCHLLC.COM

Due to the Fall of 2013 we were not able to wean our calves until November 11th and 22nd so the actual weaning weights of the bull was much higher then what the 205 weights show. Due to being over 205 days old we had to subtract weights off a lot of the bulls to figure them back to 205 days of age. We are extremely happy with the calves that came off of grass this fall.

*So come join us for the day
 and we maybe able to design a
 program together that will
 enhance your operation!*

— VOLUME DISCOUNT —

*A volume discount of 5% will be given on the purchase of 5 to 9 bulls
 bringing over \$3,500 each. (not averaging \$3,500)*

*A volume discount of 10% will be given on 10 bulls or more bringing over \$3,500 each.
 Bulls bringing under \$3,500 will not be discounted. —
 But used towards volume head count.*

Boarding of Bulls After the Sale

We can take all the bulls home and keep them free of charge until May 1. Any bull that brings over \$5,000 will be kept free of charge until May 15. We will charge \$2.00 per day to keep bulls extra days. It would be greatly appreciated if all bulls could be picked up by May 1st, 2014, or as soon as possible. As the weather warms up, the bulls run a higher risk of injury due to riding & fighting. We will do our best to care for the bulls but injuries can happen. Thank you VERY much.

Suggested Guidelines for Best Results When Using Yearling Bulls

We are firm believers in the use of yearling bulls and feel it is one of the best years of their lives. It is a time when they are easy to manage and their only concern is breeding cows. We have found that when yearling bulls are managed carefully during the second year of their lives, they will perform better over time than bulls purchased as two-year-olds. Here are some suggested guidelines for care of yearling bulls.”

- Upon receipt at your ranch, keep yearling bulls separate from older bulls and feed them a maintenance ration of 3-5 lbs/head of grain (corn, oats or bull pellets) and free choice of hay. Reduce the amount of grain fed gradually, so bulls are on straight hay or grass 2 weeks prior to turning them out.
- Where possible, try to limit the bulls to 45-60 days of pasture service the first year. At this time or as soon as possible, remove the bulls and put them in separate pastures with plenty of good quality grass.
- It is best to feed yearling bulls separate from older bulls until after their second breeding season. This allows them to achieve the growth and strength necessary to compete with older bulls for feed and space.
- A winter feeding ration of 2-4 lbs. of grain, cake or pellets, plus free choice hay will put the bulls in condition and allow them to grow and develop through the winter.

The little added cost and care of feeding a yearling bull is usually made up for the average discount in price when buying yearlings versus two year olds. You will also benefit by one and probably two or three more years use out of a well-managed and healthy bull purchased as a yearling.

We believe in the use of yearling bulls; and caring for them through their second season.

SALE TERMS AND CONDITIONS

Except for those stated in the below terms and conditions, there is no warranties, either expressed or implied, as to merchantability of fitness for a particular purpose with respect to the livestock being sold at this auction. The warranties and guarantees set forth in the “terms and conditions” are in lieu of all other warranties, either expressed or implies, and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any party claiming through buyer, for any breach of warranty or guarantee therein provided, and all other obligations or liabilities.

Bidding

Each animal will be sold to the highest bidder without reserve. The person in charge will settle any disputes as to bids, and his decision on such matter shall be final.

Announcements

Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

Breeding Guarantee

1. All animals are guaranteed to be breeders, with the exception of” a) Calves under twelve months of age, b) Animals shown by purchaser after the sale (in cases of animals shown after purchase, the breeding guarantees, if any shall be such as agreed upon between the seller and the buyer); c) Injury or disease occurring after the sale; d) Gross negligence or willful misconduct on the part of the purchaser.
2. **Bulls** are guaranteed breeders if not allowed to run with the herd until at least 12 months of age. Any bull which settles cows by natural service and passes fertility test made by competent fertility tester, mutually agreed upon by buyer and seller, during 6 month period of trial (provided for in paragraph 2 of the section of these sales terms and conditions) shall be considered a breeder. Any guaranties with respect to the ability to freeze semen shall be by separate agreement between the buyer and seller.
3. **Safe in Calf Females** have been examined by a competent veterinarian and are so guaranteed.

OUR A.I. CREW!

THANK YOU ALL FOR COMING TO OUR SALE

Greetings from all of the Larson Family. We personally look forward to seeing all of you for our 45th annual production sale, Wednesday, February 26th 2014, at Presho Livestock.

The Larson Family is now in its 105th year and the 5th Generation is now part of the operation. God has blessed us so richly to allow us to be caretakers this many years. We derive our living from the land with cattle being our main portion of the ranch, along with farming, horses and hunting. We aren't a corporation; but three generations of family working side by side each day!

Wow, what a year!! Record prices were set on cattle and grain! Cattle numbers are way down! Our consumption still continues to grow. Foreign exports of meat continue to rise and the future looks extremely bright for years to come. Our cow numbers are extremely low world-wide now. South America has even slaughtered lots of cows and broke thousands of acres to farm. Mexico exported to the United States 500,000 less cattle than ever before and in 2014 they expect to send even less because their numbers are so low. Even Canada's cow numbers are way down this year.

Also, our good friends had such great losses in October of 2013 due to the Atlas storm. Our hearts and prayers go out to these wonderful people and we know as true pioneers, you will come back with all of use helping out!

Every year, we donate one bull or bred heifer to benefit the community or someone in the community. This year, we are donating one bred heifer and all of the proceeds will be given to The Rancher Relief Fund. Whomever buys the heifer can take her home or rollover and re-sell her or donate her to the heifer program where she can go to one of the ranch families that had such losses.

This year we put the bulls on a very low 44 mega-cal ration of ground corn stalks, straw, hay, 4 pounds of modified distillers and CHS Bull pellets! This shows the genetics in the cattle's capacity to grow without doing it with the feed wagon!! This is the best way to find out true cattle efficiency and profitability! Not by DNA/blood testing, but by the scale! Like everybody that sells their calves and

fat cattle do! **(we like to grow the bulls/not burn them out)** With the help of God, we hope to continue for the next 100 years of the cattle and horse industry. It takes good friends like you, to work with, to make it all worthwhile and we appreciate your support and confidence in our program. We always look forward to seeing each and everyone of you.

As you will see from cover to cover, we have done our best to put together a complete package of cattle that will compliment all of your herds. We feel so confident in this set of bulls, once again we are retaining $\frac{1}{4}$ revenue sharing semen interest in all of the bulls. This means the purchaser gets full possession and $\frac{3}{4}$ semen interest. If we would like to collect some of the bulls, we will work with the purchaser as to when it would work for their schedule. If any semen is sold from the any of the bulls the Larsons would receive $\frac{1}{4}$ of the sales.

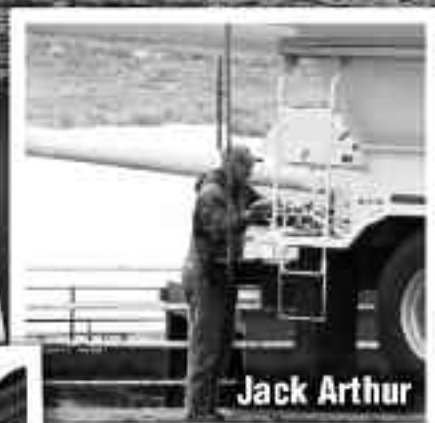

All of the bulls have tested NEGATIVE for BVD, Johnnes free level 1, they have been vaccinated with Express 5 PHM, 3VL6HB Pasturella, Haemophilus, 7-Way, foot rot shot, pink eye shot, Anthrax, Preg Guard 10, Microplasma, and have been poured with Pro-B and injectable Dectomax. The bulls should be ready to go right to your cows and go to work. We can take your bulls home with us and keep free of charge until May 1, 2014.

Due to the younger age of the bulls, and the chance of injury or death, we will semen test the bulls in April. The last five years every bull we brought home, that sold on the sale, tested extremely well and passed their test in April. We also give a first season breeding guarantee, and try to keep replacement or a loner bull on hand for you to finish out your breeding season. (See page 8)

The bred heifers have been ultra sounded, calf sexed, both scour shots, dewormed, Anthrax shots, re-preg checked and Bangs verified. All heifers have tested NEGATIVE for BVD. It saves a lot when you can get heifers grouped into a short calving period, all the work done in a short amount of time, just in time for spring turn out.

Thank You

to each of you that
have helped us so much through the years!

TWAS THE NIGHT BEFORE CALVING

Twas a night during calving season, and all through the farm

New life is brought forth, I've been living in a barn

The boot dryer is humming, the hot box is too
I feel like sleeping, but there's so much to do

The new pairs are nestled dry in their bed
while visions of green pastures dance in my head

Cowdog's on her blanket, I'm in my scotch cap
I'll just sit down for a real quick nap

When out in the yard I heard a cow bellar
I sprang from my 3rd hand lay z boy to see what was
the matter

Away to the window I flew like a flash
tripped on the cowdog, almost fell on my tail

The spotlight shined out to see what was below
a new baby calf, born in the snow

The cow looked up, she seemed fiesty and quick
with the cold wind blowing I needed to act quick

Like a Kenyan I ran through the snow and mud
I tossed the calf in the sled, he was definitely no dud
The new mama snorted, and then shook her head
"You just took my calf! I wish you were dead!"

I said "you darn so n so, I'm just here to help!"
'bout that time, the cowdog gave a sharp yelp

Over to the windbreak, trying to climb a wall
run away run away run away all!

The cow settled down, when her new baby moo'ed
She followed me to the barn, no need to be rude

Where do I put them? The pens are all full
looks like you get a roommate, the sled I still pull

I then close the gate, on the new pair
The smell of damp straw, lingers in the air

I look out the barn door, the sun's coming up
so much for that nap, I climb in the truck

A new day's begun, or did the last one even end?
Its hard to tell these days, they all seem to blend

I start the truck up, plug in my spotlight
happy calving season to all, and to all a good night??

GOING GREEN
We'll help put money back in your pocket!

THE CATTLE BUSINESS WEEKLY

- Market Reports
- Current Industry News
- Sale Service

605-859-2022 • FAX 605-859-2753 • Philip, South Dakota • email: cbw@cattlebusinessweekly.com

ATTENTION:

This year every bull that sells for \$3,000 or more will be guaranteed until Sept. 1st, 2014, against breeding injuries. The Larsons will guarantee the bulls to be breeders and to pass a breeding soundness and fertility exam. (Penile Hematoma; Preputial Tear; Testiclicities) If your bull is unusable we will credit you the difference between your purchase price and the salvage value of your bull on a bull on the 2015 sale. This way he will be covered for 100% value. We will also try to have a loaner bull available for you to use the balance of the 2014 breeding season, (until Sept. 1st 2014) at which time you can return the loaned bull to the Larson's. The bulls are not covered for abuse, neglect or lack of care. All 2 year old bulls are also tested negative for Tritrichomonas foetus. Any bull that brings \$2,999 or less will be guaranteed at 1/2 credit towards 2015's sale using the difference between purchase price and salvage value. We will try and have a loaner bull available for your use until Sept. 1st 2014, at which time the bull can be returned to the Larson's.

Breeding Soundness Exam

Two-year old bulls have passed a breeding soundness exam by the Animal Clinic, Ltd of Winner, SD. The yearling bulls have not yet been tested. The yearling bulls were scrotal measured and adjusted to a 365 day measurement.

Herd Health

The Larson bulls and heifers are on an excellent herd health program designed to provide optimal health and reproductive efficiency. Throughout their production cycles they have been given numerous vaccines to ensure their ability to perform at the highest level. These include IBR-PI3-BVD-BRSV, Histophilus, Mannheimia Haemolytica, Pasteurella Multocida, Mycoplasma, 7 way, Pinkeye-implants and Anthrax. In addition they have been given Dectomax injectable and an Ivermectin pour on. They have all been ear notch tested negative to PI BVD. The bulls have all had a Virashield 6VL5HB vibrio leptu and Fusoguard foot rot vaccine. The heifers have been Brucellosis vaccinated, pelvic measured, given Vista 3VL5 prebreeding, as well as Scour Bos 9 and boosted with Scour Bos 4 pre-calving. All heifers' pregnancies have been ultra sounded for age and if old enough the sex of the embryo determined. The Larson cattle have many years of outstanding success and are ready to go into any herd and get right to work.

Animal Clinic, LTD., Winner, SD

Dr. John Voegeli, Dr. J. Eric Heath, Dr. C.A. Owen, Dr. Tom Covey

All bulls were weaned in November 11 & 22. They were on a growing ration of ground hay, silage, free choice loose hay, 2.4 pounds of distillers, 14 percent CHS protein pellets, minerals and vitamins (A 44 mega cal ration).

We put the bulls on a 78-day test, starting the day they were weaned. This test is to compare the bulls to one another, not to see how fast they will gain. We try to grow them with good muscle; not burn them out with a hot ration of grain.

We believe we brought to town an even, excellent, thick, super fancy and showy set of bulls that will work in anybody's herd with fantastic pedigrees and proven genetics behind these bulls.

We once again ultra-sounded the bulls this year for carcass data. We feel Carcass Data is also a very important part of the overall appraisal of a bull.

Registration Papers

Papers will be mailed on registered cattle upon request of buyer unless otherwise announced. Please leave information with the clerk at settlement. We will sign and mail papers to purchaser who can send them in to be transferred.

Performance Records

Performance records are included for your information and guidance in selection. We consider them important but not absolute.

We have tried to provide in these records enough information to help you in selecting a bull which will best fit your needs.

Terms and Conditions

Terms of the sale are cash. Each animal will be sold to the highest bidder. Bidding disputes will be settled by the auctioneer, whose decision will be final. All cattle will be at the purchaser's risk as soon as sold, but will be cared for the best possible. **(All remarks sale day take precedence over catalog.)**

Accidents and Liabilities

All persons attend the sale at their own risk. The sellers and sales management assume no liability, legal or otherwise, for any accidents occurring in, on or about the premises.

Marbling is measured as percent fat. Beef carcasses are traded on the amount of intermuscular fat (marbling) they contain between the 12th & 13th ribs. Real time ultrasound has the capability to predict the actual percent of marbling in the ribeye. Bulls have 2.5 percent less intermuscular fat (marbling) than their calves (progeny) will have, so add 2.5% to each bulls IMF (marbling) rate to know how his progeny will grade.

Back Fat is measured between the 12th & 13th rib, and can be measured by ultrasound. AVERAGE BF = .50 in. RANGE = .20-.80 in.

Ribeye Area is the amount of muscle in a carcass where the high cuts of meat comes from. AVERAGE AREA = 1.1 sq. inch per 100 lb. liveweight RANGE = 9-15 sq. inches

All of these records are provided s tools and aids in selecting a bull. But never select breeding stock just on records, but also on eye appeal, structural correctness, herd longevity of the sires and dams, fertility and herd history.

30 — REGISTERABLE ANGUS BULLS — LOTS 1-29

These 16 bulls are highly recommended for heifers.

Advertise Your Bulls and Females in the

TRADEWIND

“REACH THE PEOPLE YOU NEED TO REACH WITH YOUR ADVERTISEMENT”

The Tradewind is mailed to 3,700 rural route addresses in 13 Southeastern Montana counties.

The publication is published weekly on each Monday with the Thursday before publication as the deadline.

Color is available, Various sizes can be made from your advertisement, We will be pleased to work with you.

THE TRADEWIND

406-557-2337

Or please call Janet on the cell phone at 406-690-3300

(I am in and out of the office, working from home as I take care of my 100 year old mother much of the time.)

Fax: 406-557-6284 • Email: tradewind@midrivers.com
 Box 303 • Jordan, Montana 59337

Now offering for sale:

- Coming Yearlings (Spring of 2014)
- Coming 2 Year Olds (Spring of 2014)
- Coming 3 Year Olds (Spring of 2014)
- Broke Saddle Horses
- This Fall we will be offering Weanlings

Bloodlines:

Firewater Jets / Sunfrost (Jackpot) / Leo / Paprika Pine / Poco / Top Sail Cody / Illuminator / Snippys Cowboy / and More!

AHL Image of Peppy

WOW — What a royally bred gelding!! Not often is there an opportunity to purchase a gelding with this extensive pedigree and color to boot! He was started last summer and another 20 rides now. He will be ready to go start calving on him now and then take him to spring brandings. There is a lot of future here and sharp looking to go with it.

"God made a Farmer"

And on the 8th day God looked down on his planned paradise and said, "I need a caretaker!". So, God made a farmer!

God said I need somebody to get up before dawn and milk cows and work all day in the fields, milk cows again, eat supper and then go to town and stay past midnight at a meeting of the school board. So, God made a farmer!

I need somebody with strong arms. Strong enough to rustle a calf, yet gentle enough to deliver his own grandchild. Somebody to call hogs, tame cantankerous machinery, come home hungry and have to wait for lunch until his wife is done feeding and visiting with the ladies and telling them to be sure to come back real soon...and mean it. So, God made a farmer!

God said I need somebody willing to sit up all night with a new born colt and watch it die and dry his eyes and say "maybe next year". God said "I need somebody that can shape an ax handle from a persimmons sprout, shoe a horse with a hunk of car tire make a harness out of hay wire, feed sacks and shoe scraps. And...who, at planting time and harvest season, will finish his forty hour week by Tuesday noon. Then, pain'n lovin' "tractor back", put in another seventy two hours. So, God made a farmer!

God had to have somebody willing to ride the ruts at double speed to get the hay in ahead of the rain clouds and yet stop on mid-field and race to help when he sees the first smoke from a neighbor's place. So, God made a farmer!

God said, "I need somebody strong enough to clear trees, heave bales and yet gentle enough to taste lambs and wean pigs and tend the pink combed pullets...and who will stop his mower for an hour to mend the broken leg of a meadow lark. So, God made a farmer!

It had to be somebody who'd plow deep and straight...and not cut corners. Somebody to seed and weed, feed and breed...and rake and disc and plow and plant and tie the fleece and strain the milk. Somebody to replenish the self feeder and then finish a hard days work with a five mile drive to church. Somebody who'd bale a family together with the soft strong bonds of sharing, who'd laugh and then sigh...and then respond with smiling eyes, when his son says he wants to spend his life "doing what dad does". So, God made a farmer.

Paul Harvey

Thank you!

We would like to extend a thank you to everyone who attended our sale and to all of the buyers who purchased bulls or heifers.

Thank you for not making inquiries on Sundays.

We want to thank the auctioneers for the fine job they have done.

**Thank you to Cody Palmer and Farm Bureau
for part of the dinner supplies and coffee.**

**Thank you to CHS Feeds and the ladies from the cafe
for helping serve the dinner.**

**Thank you to Producers Seeds and Justin Blasius
for all they have done also.**

**Also a big thank you to all of those who helped in the many different
ways of getting ready for and during the bull sale.**

Kirt Hossle • Mark Winter • Tex Holthus • Kevin Moody

Brandon Moody • Chris Welker • Shay Littau

Randy Holmquist • Bill Vogel

and everyone else that helped us out over the year so much

Thank you everyone!
