# Thank you all for coming to our sale

**You can also view online at [www.DVAuction.com](http://www.DVAuction.com)**

The Larson family would like to welcome you to our family's 57th production sale on December 4th at 1:00 pm. We are offering 48 coming two-year-old bulls and 150 bred heifers. Cattle prices have remained high through most of this year and even better, there is every indication the prices will remain at these levels for the foreseeable future. This year has been a welcome relief from several years of extreme drought. We have been able to produce more crops and feed this year along with sufficient fall and winter grazing. It is truly a wonderful time to be involved in all aspects of beef production. We cannot thank you - our customers - enough for your support over the decades which is allowing the 5th generation to continue the ranching tradition.

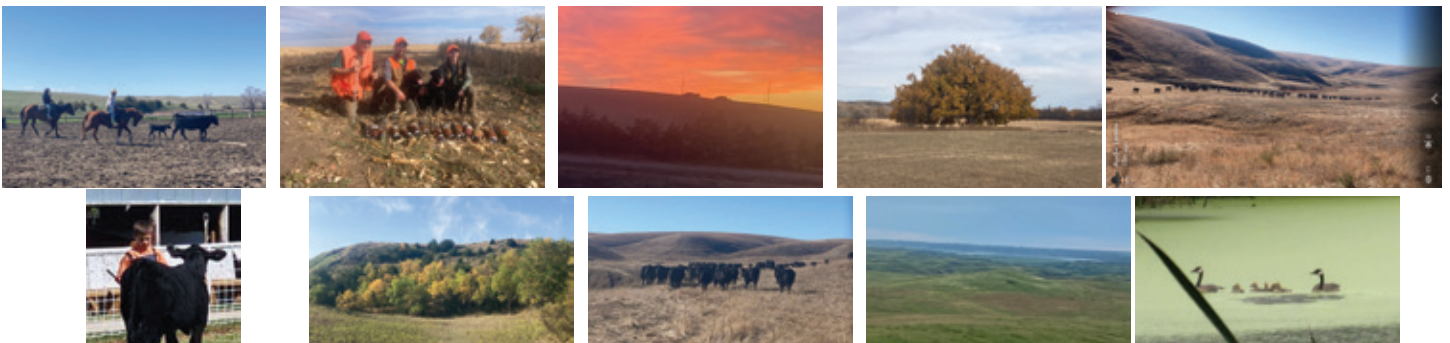

Several years ago, we decided to change our breeding program but not our philosophy. Our cows run in large, steep pastures in the White and Missouri river hills. It is wonderful land and provides a uniquely challenging environment for cattle to grow, develop, and thrive. We had AI'd our cows for over 50 years with great success, but we were finding that it was continually harder to find AI bulls that consistently produced the traits most valuable to our ranch. The economic traits of structural soundness, good feet and legs, muscle, fleshing ability, and most importantly fertility. We decided to search for and invest in herd bulls that display the traits needed but more importantly had the genetics to consistently sire offspring that have these characteristics. It is easy to look in a catalog - bull sale or AI company - to find the biggest number for individual traits. We have found it much harder to identify potential herd bulls that display superior characteristics in the multiple traits that our ranch requires. In a nutshell, we have decided to let the ranch and Mother Nature be the largest determining factor in our selection and culling process - not a piece of paper, a feed truck, or a computer screen.

With the intention of challenging our herd bulls and getting the most use we can, we breed for calving in two time periods. The March and April females produce bulls for our April sale and the April and May cows produce bulls for the December sale. All of the cows and heifers are calved on numerous different river bottoms and are checked twice a day. This calving process identifies the economic traits of calving ease, vigor at birth, maternal instincts, along with the added benefit of less stress on the cows and calves. We have maintained a 98% or better calf crop while allowing our ranch's resources to be used most effectively. You will notice most of the bulls are now sired by bulls we own and breed cows in our pastures. We expect our bulls to do exactly what you need your bulls to do - cover cows quickly, stay sound, and maintain condition as well as survive South Dakota winters with only natural protection and limited feed. We are already seeing positive results as 2024 calf crop is our most uniform and consistent for type and kind in both our heifers and bulls. We are excited about the future of our program because of our time-tested cow herd along our now proven herd bulls and some young herd bulls with even more potential.

The bulls for this sale were weaned in November and put on a high roughage growing ration. They spent this summer on grass with plenty of room to exercise and grow muscle. All the bulls and heifers are sorted numerous times for disposition and structure. The bulls were semen tested, vaccinated for pre breeding shots, pink eye, foot rot, anthrax, they were dewormed, and poured with cleanup too. The bred heifers have had the same shot protocol along with their first scour shot. The heifers have been ultrasounded for breeding dates and preg checked safe with calf. They have also been tested negative for BVD. You will see a few bulls that are a little older, these were guaranteed bulls that we kept back from the April sale but were not needed for use this year.

The bulls and heifers can be picked up at the ranch starting Thursday, December 5th. We can schedule a time, so to be sure we have brand and health papers available for transport. If you pick up your bulls December 5th, there will be a \$50.00 per bull, or make arrangements with the Larsons for free delivery in the month of December, within the state of South Dakota. The Larsons will work with you on your bull purchases to see what arrangements can be made.

Please feel free to come to the ranch to evaluate the cattle any time before the sale. Sale day the cattle will be on display at the ranch with the sale being a video sale at the Hamill Community Hall and online at DVAuction.com Insurance on the cattle will be available sale day through Martin-Trudeau. We will have a complimentary lunch starting at 11:30. Ranching and raising cattle is a great way of life and business to be involved in. We feel blessed that so many of you have supported our program for over five decades and look forward to developing the same type of relationships with our new customers.

## BREEDING SOUNDNESS EXAM

Two-year old bulls have passed a breeding soundness exam by the Gregory Animal Clinic, LTD of Gregory, SD.

## HERD HEALTH

The Larson bulls and heifers are on an excellent herd health program designed to provide optimal health and reproductive efficiency. Throughout their production cycles they have been given numerous vaccines to ensure their ability to perform at the highest level. These include IBR- P13-BVD-BRSV, Histophilus, Mannheimia Multimin Vitamin Shot, Haemolytica, Pasteurella Multocida, Mycoplasma, 7 way, Pinkeye and Anthrax. In addition they have been given Dectomax injectable and an Ivermectin pour on. They have all been ear notch tested negative for BVD. The bulls have all had a Virashield 6VL5HB vibrio leptos and Fusoguard foot rot vaccine. The heifers have been Brucellosis vaccinated, pelvic measured, given Vista 3VL5 prebreeding, as well as Gaurdian. All heifers' pregnancies have been ultra sounded for age and if old enough the sex of the embryo determined. The Larson cattle have many years of outstanding success and are ready to go into any herd and get right to work.

Gregory Animal Clinic, LTD., Gregory, SD  
 Dr. Boaz Swift

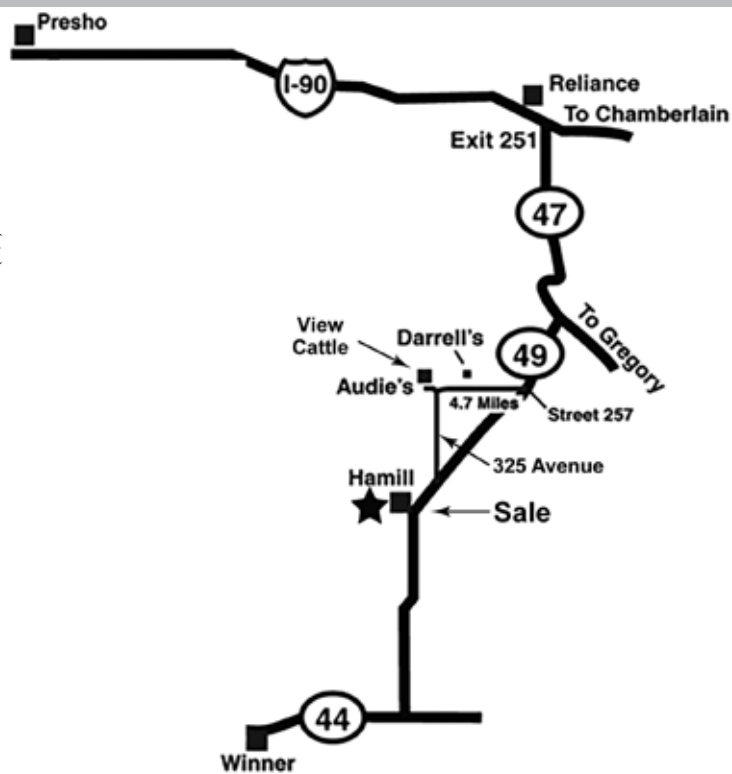

All bulls were weaned on September 20 & 23. They were on a growing ration of ground hay, silage, free choice loose hay, distillers, minerals and vitamins.

We try to grow them with good muscle; not burn them out with a hot ration of grain.

We believe we brought to town an even, excellent, thick, super fancy and showy set of bulls that will work in anybody's herd with fantastic pedigrees and proven genetics behind these bulls.

**For more pictures, videos,  
 and herd sires go to our  
 website at  
[www.Larsonranchllc.com](http://www.Larsonranchllc.com) or  
[dvauction.com](http://dvauction.com)**

*Supplement sheet with updated information  
 will be available sale day.*

## REGISTRATION PAPERS

Papers will be mailed (on registered) cattle upon request of buyer unless otherwise announced. Please leave information with the clerk at settlement. We will sign and mail papers to purchaser who can send them in to be transferred.

## PERFORMANCE RECORDS

Performance records are included for your information and guidance in selection. We consider them important but not absolute. We have tried to provide in these records enough information to help you in selecting a bull which will best fit your needs.

## TERMS AND CONDITIONS

Terms of the sale are cash. Each animal will be sold to the highest bidder. Bidding disputes will be settled by the auctioneer, whose decision will be final. All cattle will be at the purchaser's risk as soon as sold, but will be cared for the best possible. (All remarks saleday take precedence over catalog.)

## ACCIDENTS AND LIABILITIES

All persons attend the sale at their own risk. The sellers and sales management assume no liability, legal or otherwise, for any accidents occurring in, on, or about the premises.

## - Volume Discount -

A volume discount of 5% will be given on the purchase of 5 to 9 bulls bringing over \$4,000 each. (not averaging \$4,000) A volume discount of 10% will be given on 10 bulls or more.

**BOTH FALL 2024 & SPRING 2025  
 SALES WILL BE TIED TOGETHER.**

This year every bull that sells for \$3,500 or more will be guaranteed against breeding injuries until September 1, 2025. We will guarantee the bulls to be breeders and to pass a breeding soundness and fertility exam (Penile Hematoma, Preputial Tear, Testiclitities) if your bull is unusable we will credit you the difference between your purchase price and the salvage value of your bull on a bull in the 2025 sale, that being said your bull will be covered for 100% value. We will try to have a loaner bull available for you to use the balance of the 2025 breeding season, (until September 1, 2025) at which time you can return the loaned bull to the Larson's. The bulls are not covered for abuse, neglect or lack of care. Any bull that brings under \$3,500 will be guaranteed at 1/2 credit towards the Dec. 2025 sale using the difference between purchase price and salvage value. We will try to have a loaner bull available for you to use until September 1, 2025 at which time the bull can be returned to the Larson's (or we may have the opportunity for you the day of the sale so you may insure your bull yourself that day.)

## BOARDING OF BULLS AFTER SALE

We can take all the bulls home and keep them free of charge until Jan. 1st (a \$2.00 per day after Jan. 15th). Any bull that brings over \$6,000 will be kept free of charge until Feb. 1, 2025. It would be greatly appreciated if all bulls could be picked up by March 1st, 2025, or as soon as possible. As the weather warms up the bulls run a higher risk of injury due to riding & fighting. We will do our best to care for the bulls but injuries can happen. **\$50 credit per bull if you take the bull home sale day or day after (Dec. 5, 2024).** We will deliver what is not picked up in Dec. unless other arrangements are made. Thank you VERY much.

## SALE TERMS AND CONDITIONS

Except for those stated in the below terms and conditions, there is no warranties, either expressed or implied, as to merchantability of fitness for a particular purpose with respect to the livestock being sold at this auction. The warranties and guarantees set forth in the "terms and conditions" are in lieu of all other warranties, either expressed or implies, and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any party claim through buyer, for any breach of warranty or guarantee therein provided, and all other obligations or liabilities.

### BIDDING

Each animal will be sold to the highest bidder without reserve. The person in charge will settle any disputes as to bids, and his decision on such matter shall be final.

### ANNOUNCEMENTS

Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

### BREEDING GUARANTEE

1. All animals are guaranteed to be breeders, with the exception of
  - a) Calves under twelve months of age;
  - b) Animals shown by purchaser after the sale (in cases of animals shown after purchase, the breeding guarantees, if any shall be such as agreed upon between the seller and the buyer);
  - c) Injury or disease occurring after the sale;
  - d) Gross negligence or willful misconduct on the part of the purchaser
2. **Bulls** are guaranteed breeders if not allowed to run with the herd until at least 12 months of age. Any bull which settles cows by natural service and passes fertility test made by competent fertility tester, mutually agreed upon by buyer and seller, during 6 months period of trial (provided for in paragraph 2 of the section of these sales terms and conditions) shall be considered a breeder. Any guaranties with respect to the ability to freeze semen shall be by separate agreement between the buyer and seller.
3. **Safe in Calf Females** have been examined by a competent veterinarian and are so guaranteed.
4. Bulls have passed semen fertility test.

Martin-Trudeau will be at the sale if you wish to insure your bull. Any bull bringing over \$5000.00, Larsons will pay 1/2 of the premium we also have our guarantee program found on page 2.

All of these records are provided as tools and aids in selecting a bull. But never select breeding stock just on records, but also on eye appeal, structural correctness, herd longevity of the sires and dams, fertility and herd history.

To get your weekly EPD updates, you can go to the Angus Association each Friday and view them.
